Telephone: 208.433.8845 or 1.800.905.3436 Fax: 208.433.8337

The Idaho Federation of Families for Children's Mental Health is the clearinghouse for respite providers for the state of Idaho. Our website (idahofederation.org) provides the only comprehensive list of respite care providers in each region throughout Idaho.

The accessibility of an online list is that parents can access respite resources within their region outside of normal business hours. This also fills the gap for families who do not already know someone in their community willing to provide respite for their family.

It's easy to get on the list. Once your training and background investigation are completed*, simply call the Idaho Federation of Families at 1-800-905-3436. We'll happily take down all the pertinent information and will get you added to the website right away. As a provider you can list times for families to call, preferences on days and times, and any other pertinent information.

Respite care has consistently been identified by families as a priority need; however there has been a critical shortage of respite care providers in Idaho. Please join us in making it easier for families to find qualified caregivers in their area. Call today!

***Training consists of a two hour workshop in your region. Background investigation and fingerprinting are performed by the Idaho Department of Health & Welfare or you local police department. Results take about two weeks.**
