

FEDERATION RESOURCE LIBRARY

Did you know the Federation has a resource library available? We lend books, pamphlets, videos, and other information to parents. These resources are free of charge to families and we are always willing to help research additional resources if we do not have what you need. The rest of our website also offers an extensive list of resources available both statewide and locally found under the Providers drop-down in the Resource Directory.

The following is a list of books, videos, DVD's, cassettes, and computer CD's; if you are interested in checking out any of the subsequent resources or have any other questions regarding our resource library please contact our office at 1.800.905.3436.
